UNITED STATES GOVERNMENT

CONFIDENTIAL*Memorandum*

TO : Chief, FBIS

DATE: 7 December 1964

FROM : Chief, Hokkaido Bureau

SUBJECT: Monthly Progress Report - November

I. GENERAL

- A. No further information was received during November on the status of the FBIS request for land from the Japanese Government.
- B. On 22 November, following the Japanese Government's announcement that Japanese troops in the Chitose area have Hawk missiles, several hundred demonstrators gathered for a rally at the main gates of Chitose II and Chitose III. There were no incidents reported.

II. OPERATIONS

A. Monitorial

1. The bureau's weekly coverage increased 3 hours and 15 minutes in November due to continued reception improvement from seasonal transmitters.
2. Periodic cruising for the Vladivostok Television Service audio channel on 56.25 mcs, the Vladivostok FM transmitter on 69.68 mcs, and the Khabarovsk FM transmitter on 70.50 mcs was continued in November with negative results.
3. A ☐ request for checks of Radio Moscow's Mandarin programs for possible intentional interference with the filing of pertinent reports is being continued.
4. A request forwarded by FOS for a check of North Korean transmitters for possible intentional interference was complied with and the results submitted to Headquarters.

50X1

B. Editorial

1. Abstract and wirefile wordage totaled 133,700; the number of abstracts was 1,090.
2. Teletype outage totaled 11 hours and 40 minutes because of line trouble at Zama.

C. Communications**CONFIDENTIAL**

UNITED STATES GOVERNMENT

Memorandum

TO : Chief, FBIS
ATTN: Chief, Administrative Staff, FBIS
Chief, Engineering Staff, FBIS
FROM : Electronics Technician, Hokkaido Bureau, FBIS

DATE: 1 December, 1964

SUBJECT: Equipment and Facilities Report for month of November, 1964.

1. The following developments regarding bureau equipment and facilities are brought to your attention:

- (a) Two Model 28 ASR and one Model 28 KSR Teletype machines were converted to 100 WPM operation at 2000012 November in compliance with Major Relay Station, Camp Drake request.

Coordination was very good necessitating only a fifteen minute delay in traffic for testing and adjusting. Subsequent operation so far has shown no increase in outages or garbles.

- (b) An electric typewriter was received from Headquarters on 6 November. During shipment the motor shock mounts vibrated out of their holders allowing the motor to drop out of its holding bracket. This resulted in a damaged holding bracket which had to be removed and straightened.

It appears that motors mounted in this manner should be better secured for overseas shipment.

Although the inside factory container indicated a "This Side Up," no indication was given on the outside wooden crate.

2. The following items have been received and entered into bureau non-expendable property accountability records:

Typewriter, electric, Royal Model GA13. Voucher #64-24216-FV2F.
Total Value: \$345.40.
